

## SAP Implementation

### Company

A leading Manufacturer of  
Electrical Switches

### Industry

Manufacturing

### Country

Vietnam

### Solution

SAP

### Duration

5 Months

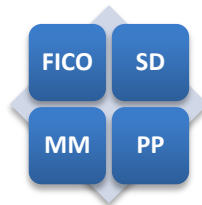

### Background

The Customer is one of the world's leading manufacturer of electrical Switches and systems in their sector.

To strengthen internal controls and accommodate global requirements, the customer replaced its aging legacy system with the SAP® ERP application.

Avensys completed successful, large-scale SAP software implementation across the world, including their subsidiaries.

### Modules Implemented

### Solution

- Global template identified and extended it to the customer as a new company in SAP and applied ASAP methodology during the implementation.
- Development policy mandating balance between functionality and company requirements.
- Strong leadership from top management as well as the implementation project team.
- User education program developed by employees from various lines of business.
- Deep understanding of SAP® ERP promoted through extensive communication.
